# Custom Sign Foam

Inspiring new dimensions of creativity in 3D signs,  
graphics and displays.

# Product Examples & Highlights

Sign Foam is one of the most reliable and enduring materials on the market for dimensional sign making, environmental graphics, and 3-D display. This proven, high-density urethane (HDU) foam board can be routed, printed, painted, hydro-dipped to create a uniform, grain-free, dimensionally sharp product.

## Highlights

### Extreme Durability
